Location Information								System-Owned Portion			Customer-Owned Portion				Comments
Unique Service Line ID	Street Number	Street Name	City	Zip Code	County	Latitude	Longitude	System-Owned Portion Service Line Material Classification	If Non-Lead in Column O... Service Line Installation Date	Basis of Material Classification	Customer-Owned Portion Service Line Material Classification	Was the Service Line Material Field Verified?	If Yes in Column AE... Describe the Field Verification Method	If Yes in Column AE... Enter the Date of Field Verification	
A Unique ID by the public water	Water systems must track addresses of all service lines in their internal inventory. For the publicly accessible version, location identifiers are required for lead and galvanized requiring replacement. If the system does not use addresses for their location identifier, other options could include GPS coordinates, landmark, intersection, block, or other details to specify service line locations.							If "Non-Lead Other", describe in Comments field	Estimated date when the service line was installed or replaced	Select option from drop down list. If "Other," describe in the Notes field	If "Non-Lead Other", describe in Comments field		If Other, describe in the Notes field	Estimated date of field verification or date that the record was updated	Please use this section to record any comments or notes associated with a service line.
